

Moonlight- Ecozone

A night light for only 50p. Using NASA space technology developed to illuminate cockpit panels this night light will run for 24 hours a day 365 days a year for under 50 pence. The electro-luminescent bulb-free panel is cool to touch emitting a soothing blue/green light perfect for night lighting in bedrooms,(helping your little one feel comfortable) hallways, corridors etc.

Runs on any 3 pin socket. New Moonlight has a brighter bulb.
