

**Product Name:** Solar Mate Point 5

**Part Number:** SM0005

**Brief Description:** The Solar Mate Point 5 is a quick and easy way to provide lighting for small buildings such as sheds, summer houses or when camping. Installed in minutes, Solar Mate Point 5 can be activated by a manual ON / OFF Switch or by the supplied remote control!

**Catalogue Description:** Solar Mate Point 5 is an efficient and easy way to provide lighting inside small buildings where mains power does not exist. Using the most advanced Thin Film solar cell technology, Solar Mate Point 5's solar panel powers its three internal AA rechargeable batteries, located in the light unit, during the day ready for operation once the sun goes down.

The Solar Mate Point 5 light unit contains 10 super bright LED's, which are powerful enough to illuminate an area of 9sq metres or 93 sq feet.

Solar Mate Point 5, can be activated either by its ON / OFF switch, located on the light unit or by the supplied remote control and will provide light for up to 3 hours per day.

The Solar Mate Point 5's light unit attaches to the Solar panel via a supplied 6 foot cable.

Full fitting instructions are included.
